Summary

Quality Assurance Engineer with 7+ years of experience in manual and automation testing across agile environments. Proven success leading QA processes, designing test strategies, and enhancing CI/CD pipelines. Skilled in Tricentis Tosca, Selenium, Cypress, Azure DevOps, Python, and SQL. Known for identifying high-impact bugs, improving regression coverage, and leading cross-functional QA teams. Eager to contribute technical expertise and strategic thinking to strengthen software quality and delivery.

Professional Experience

Software Tester Engineer

Lockheed Martin | Aguadilla, PR | August 2025 – Present

- Maintain, optimize and create Tosca Automated Test Scripts for 3DX in DEV, TEST and ISO environments, ensuring reliability on Releases.
- Execute comprehensive Regression Testing for ALM on 3DX, validating integrations and stability throughout the Product Lifecycle.
- Collaborate with Cross-Functional Teams to troubleshoot Defects and improve Automation Efficiency and ensure Alignment with LM's 21st Century Security Vision and Mission-Critical System Requirements.
- **Key Achievement:** Reduced Manual Testers workload with Tosca Automation Regression Scripts, improving reliability on 3DX environments.

IT Quality Control Analyst Sr

Carelon Global Solutions Puerto Rico | San Juan, PR | November 2023 – June 2025

- Lead Spanish document testing to ensure alignment with English specifications, maintaining linguistic and contextual accuracy.
- Develop and execute comprehensive test plans, scenarios, and assets to validate software quality and performance across multiple applications, including contributing to automation testing to improve regression detection.
- Coordinate quality assurance processes across agile teams, facilitating seamless integration and process adherence.
- Manage defect identification, tracking, and resolution through collaboration with developers and stakeholders.
- **Key Achievement:** Detected and reported over 60% of critical Spanish-language bugs, significantly reducing production issues and improving software quality.

Quality Assurance Tester (Manual & Automated)

INVID | San Juan, PR | September 2021 - November 2023

- Designed and executed manual test cases for functional, integration, and regression testing, identifying defects and documenting findings for stakeholders.
- Developed automated test scripts using Selenium and Cypress to optimize testing efficiency and coverage.
- Contributed to CI/CD pipeline automation by integrating test scripts with Jenkins, collaborating with developers to streamline testing.
- Performed cross-browser and cross-platform testing to ensure application consistency and reliability.
- **Key Achievement:** Led the QA team, on various projects, including security, accessibility, and manual testing, resulting in a 30% increase in test coverage and a 20% improvement in regression accuracy through optimized CI/CD pipeline automation.

Integrated Combat Systems Engineer

Department of the Navy | Dahlgren, VA | August 2018 - August 2021

- Testing and Evaluation of the AEGIS Combat System across multiple Navy baselines, focusing on radar systems SPY-1 and SPY-6.
- Conducted data analysis for tactical performance and system integrity of combat systems.
- Coordination between technical teams ensuring secure data handling, previously held a US Secret Clearance (active through 2023).
- Received the Courage Award for outstanding professionalism during critical test events at the Surface Combat Systems Center.
- **Key Achievement:** Improved data validation accuracy by 30% through enhanced testing and collaborative data analysis.

Education

University of Puerto Rico | Mayagüez, PR | August 2012 - May 2018

Bachelor of Science in Computer Science

Certifications

- CTFL (Certified Tester Foundation Level), ISTQB | November 2022
- Junior Cybersecurity Analyst Career Path, Cisco Networking Academy | August 2023
- W3Cx-WAI0.1x: Introduction to Web Accessibility, edX | August 2023
- Tricentis Tosca Fundamentals - Optimizing Test Automation with Centralized Test Data (AS2), Tricentis Academy | October 2025

Skills & Competencies

- Technical Skills: Tricentis Tosca, Selenium, Cypress, Jenkins, DevOps, JMeter, Python, Java, C++, SQL, HTML, CSS, OWASP ZAP, Git, SortSite, Jira, PyCharm & Aqua IDE's; Automation, Regression, Functional and Non-Functional Testing.
- Soft Skills: Problem Solving, Critical Thinking, Communication, Team Collaboration, Attention to Detail, Adaptability, Time Management, Critical & Analytical Thinking, Leadership, Creativity, Risk Assessment
- Platforms: Mac OS, Windows, Linux, Xcode, Android OS, Apple iOS, Microsoft 365
- Languages: Spanish (Native), English (Proficient)
